TECHNICAL RIDER

Morten Deurell
Stand-up magic

Contact

– The contact person must be reachable on the stated mobile number from 30 min. before showtime.

Conditions

– A room in which the audience can see the performance.
– Placement in the room: the audience is seated in front of the stage and as close to it as possible.
– Uniform background/wall without windows, mirrors or distracting elements.
– Sufficient light for the audience to see what is happening.
– Sufficient quiet for the audience to hear the performance.
– It is the organiser's responsibility that the audience does not obstruct the show, e.g. through intoxicated behaviour.
– It is the client's responsibility if dining or other programme items shorten the booked performance time.

Stage area

– Depth: min. 1.5 m.
– Width: min. 2.0 m.
– Height: raised stage of 20-120 cm as required. For fewer than 50 guests a raised stage is not necessary.

Lighting

– Minimum: house lights, so the audience can see the show and Morten Deurell can see the audience.
– Optimal: neutral stage lighting plus enough house light for the audience to be visible from the stage.

Sound

– Wireless handheld microphone in a straight (non-boom) microphone stand.
– PA system appropriate to the audience size.
– Sound technician as required.
– By agreement, Morten Deurell can bring a PA system. This increases the fee.

Video

– For larger events (250+ guests) it is recommended that the show is filmed live and shown on a large screen or projector and screen.
– Camera operator/video technician as required.

Catering and accommodation

– Cold drinking water in a glass.
– If a meal is offered, it is served after the performance.
– Accommodation is arranged if needed.

Introduction

The host introduces the show with the following words:

> **“We have a surprise for you tonight. We won't give anything away - please just give a warm welcome to MORTEN DEURELL!”**
